

# Norway Presentation Script

## 3 Speakers - 1 minute each (approximately)

---

### 🎤 SPEAKER 1 (Introduction + Technology + Nature)

#### Slide 1 - Introduction

"Hei! That means 'hello' in Norwegian. Hello everyone! Today we are going to talk about Norway, a beautiful country in Northern Europe. Norway is very different from Colombia. While Colombia is tropical and warm, Norway is cold with snow and ice. Colombia has coffee plantations, but Norway has fjords and mountains. Both countries are beautiful, but in very different ways! Norway is famous for its nature, technology, and interesting culture. Let's start!"

#### Slide 2 - Technology

"First, let's talk about technology. Norway is a very modern country. They love electric cars! In fact, Norway has more electric cars per person than any other country in the world. Almost everyone uses the internet, and it is very fast everywhere. People don't use cash very much - they pay for everything with cards or phones. The government also uses technology to help people online. Norway is really a digital country!"

#### Slide 3 - Nature

"Now, let's talk about nature. Norway has incredible nature! The most famous thing is the fjords - these are deep blue waters between very tall mountains. They are amazing! In winter, you can see the Northern Lights, also called Aurora Borealis. These are beautiful green and colorful lights in the sky. Norway also has many mountains, forests, and waterfalls. There are many national parks where people can hike and enjoy nature."

---

### 🎤 SPEAKER 2 (Knighted Penguin + Midnight Sun)

#### Slide 4 - Knighted Penguin

"Thank you! Now I'm going to tell you a very funny story. Did you know that Norway has a penguin knight? Yes, it's true! His name is Nils Olav, and he lives in Edinburgh Zoo in Scotland. In 2008, the King of Norway made him a knight! He is the mascot of the Norwegian King's Guard. His full title is 'Sir Nils Olav the Third, Baron.' This penguin has a military rank! It's one of the most interesting things about Norway."

## **Slide 5 - Midnight Sun**

"Another amazing thing about Norway is the Midnight Sun. In the summer, in northern Norway, the sun never sets! That's right - the sun stays in the sky 24 hours a day. This happens from May to July in the north of the country. People can go outside at midnight and it's still sunny! They can hike, play sports, or have picnics at midnight with sunshine. This happens because Norway is very close to the North Pole. It's a very special experience!"

---

### **SPEAKER 3 (Fun Facts + Weird Facts + Conclusion)**

#### **Slide 6 - Fun Facts**

"Thank you! Now let me share some fun facts about Norway. Did you know that Norway invented the cheese slicer in 1925? Also, salmon sushi was actually invented in Norway, not in Japan! Norway has more coastline than the United States - that's incredible! Norwegians love coffee and drink a lot of it every day. And there's something very important: Norway has a special seed vault inside a mountain. This vault protects seeds from all over the world in case of disasters. It's like a backup for the world's food!"

#### **Slide 7 - Weird Facts**

"Now, some weird facts! As you heard, Norway knighted a penguin - that's definitely weird! In winter, some places in Norway have 'polar night' - this means no sun for many weeks. The opposite of the midnight sun! There's also a town in Norway called 'Hell,' and yes, it freezes in winter! Norwegians eat brown cheese that tastes sweet, like caramel. And here's something very strange: Norwegian parents leave their babies outside in the cold to sleep! They believe the fresh, cold air is healthy for babies."

#### **Slide 8 - Conclusion**

"So, as you can see, Norway is an incredible country with amazing technology, beautiful nature, and many interesting traditions. Thank you for listening! Do you have any questions?"

---

### **TIPS FOR THE PRESENTATION:**

- 1. Practice your part** several times before the presentation
- 2. Speak slowly and clearly** - remember it's A2 level English
- 3. Change slides** when you finish each section
- 4. Make eye contact** with your audience

**5. Smile and stay confident!**

**6. Time yourselves** - each speaker should speak for about 1 minute

**Total time: Approximately 3 minutes**

---

## WHO CHANGES THE SLIDES?

- **Speaker 1:** Changes slides 1, 2, and 3
- **Speaker 2:** Changes slides 4 and 5
- **Speaker 3:** Changes slides 6, 7, and 8

OR you can have one person in charge of changing all slides while others speak.

Good luck with your presentation! NO
